Woodson is a community that is certainly deserving of an FM service. The proposed Channel 298A will provide additional diversity and an outlet for local self-expression to Woodson residents and therefore is in the public interest.

Attached hereto is a channel study confirming that Channel 298A can be allocated to Woodson, Texas consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

Note: Rulemaking to add Channel 298C2/ Seymour was dismissed by Report & Order for MM Docket No. 00-148, released May 8, 2003. Also note that a Petition for Partial Reconsideration for MM Docket No. 00-148 was filed on June 16, 2003 but did not include the portion of the proceeding that included the allotment for Channel 298C2/Seymour. And finally, note that the rulemaking to add Channel 298A/ Woodson, MM Docket No. 01-157 was dismissed by Report & Order, released February 9, 2004.

Reference coordinates for Channel 298A at Woodson, Texas are:

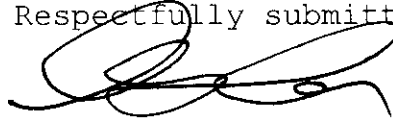

33 00 00
92 02 30

Should this petition be granted and Channel 298A be allotted to Woodson, Texas, Petitioner will apply for Channel 298A at Woodson and after it is authorized,

will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,
